Mr. Paul Stacey
Department of Environmental Protection
Bureau of Water Protection
79 Elm St
Hartford, CT 06106

Dear Mr. Stacey:

I am writing this letter to express my support for the new Streamflow Regulations. However, I am concerned about the Class 4 streams. The way the regulations are currently written would provide little or no protection to these streams. Class 4 should either be eliminated or strengthened so that every stream has some level of protection.

Thank you for the opportunity to share my support for these important regulations.

Sincerely,

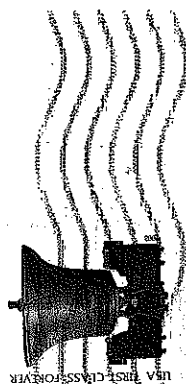

A handwritten signature in cursive script that reads "Frank B. Hall".
